

Parental Controls

Digital Television has an optional set of Parental Controls that allow filtering of undesirable content from household viewing. Each show, movie or event has ratings that appear in the GUIDE. At your discretion, you may allow or block certain rating types from being viewed in your home. All Parental controls can temporarily be suspended by going to MENU < Parental Lock and enter password to unlock parental controls

1. Under the MENU go to SETTINGS
(Password defaults to "0" until reset by user)

2. The SETTINGS menu will default to the PREFERENCES tab. This will allow changes to the Primary User. (To adjust sub-users, go to the USERS tab of the SETTINGS menu)

3. Go to the PARENTAL CONTROL button at the bottom of the screen.

4. The PARENTAL CONTROL button will bring you to the screen where you can select your desired settings.

5. Content may be restricted by movie rating (G-AO) or television rating (TV-Y to TV-MA).

6. Content can be further restricted by selecting content ratings (S,V,L,D,FV) at the bottom of the screen. This will prevent any programs with a selected sub-rating from being able to be viewed, unless PARENTAL CONTROLS are unlocked.

Note – Under the Preferences Tab in the Settings menu an entire channel's programming can be blocked by going to Change Channel Blocking. Also multiple users can each have different Parental Control Settings.
